

FISK VFR Arrival to OSH RWY 9

Airport Elevation 808'

Oshkosh Tower North: **118.5**

NOT FOR NAVIGATION

Pilots should use extra caution to maintain a safe airspeed and avoid low turns on landing approach.

If a go-around is needed, notify ATC immediately for resequencing instructions.

RWY 9 landing distances

Threshold 6,178'

White Dot 4,350'

After landing and when speed permits, aircraft under 6,250 lbs. are required to exit Runway 9 to the left or right, as directed, onto the sod. **Do not turn back onto the runway.** Be alert and use caution for hazards marked with cones and/or flags.

After exiting runway, put parking/camping sign in windshield and follow EAA flag-person directions to parking/camping area.
